

SUSTAINABILITY POLICY

As Granada Luxury Hotels;

- We conduct our operations with due consideration for our environmental, social, and economic impacts; in accordance with the principles of sustainable tourism; with a sense of responsibility that goes beyond legal requirements; and by taking into account the expectations of our stakeholders,
- To ensure the efficient use of energy, water, and natural resources, and to help reduce our environmental footprint by monitoring resource consumption,
- By adopting the principles of the circular economy, to support the reduction of waste generation and the widespread adoption of reuse and recycling practices,
- To control the use of chemical cleaning products and environmental pollutants such as air pollutants, fertilizers, and pesticides; to monitor and reduce their potential impacts on the environment and human health;
- Setting long-term goals to reduce our carbon footprint, promoting the use of renewable energy, and ensuring the widespread adoption of climate-friendly practices,
- To contribute to the conservation of local and international biodiversity and to operate in a manner that respects natural ecosystems,
- To create an equitable, safe, and development-oriented work environment for our employees; to support the local community, cultural values, and economic development,
- To maintain a transparent, ethical, and responsible approach to communication with our guests, employees, suppliers, and other stakeholders,
- We are committed to regularly monitoring our sustainability performance, improving it through a continuous improvement approach, and reviewing this policy at least once every three years.

Board of Directors
