

CULTURAL, NATURAL, HISTORICAL LOCATIONS POLICY

As Senior Management of Granada Luxury Hotels;

It is very important for us that you, our esteemed guests, have information about the cultural identity of our country and make a positive contribution.

We undertake;

- To contribute to the protection of local historical, archaeological, cultural, and spiritual areas and to prevent the deterioration of the natural texture by helping the local people,
- To introduce cultural, natural, and historical places to our guests so that they can experience the core values of our country,
- To ensure that the rules are followed when visiting local historical, archaeological, cultural, and spiritual places (to use garbage cans, not to smoke, not to speak loudly, not to go if you are drunk, to obey the dress code, etc.)
- To protect historical/archaeological artifacts, not to be sold, traded, or exhibited unless permitted by law,
- To include visits to local historical, cultural, and historically significant places in our programs around the common goals of preserving these values in our interaction with the local community.
